A MESSAGE FROM OUR MANAGER

Bryan Cox

August has flown by just as the entire summer has! The summer has been different this year as far as weather. We had a week of very hot and humid weather but then we also had 3-4 days in a row of low 80-degree weather.

The 3rd weekend in August is when we hosted our Piper Glen Ladies Invitational. This year we saw a record setting 136 ladies play! We had teams travel as far as Missouri, Southern Illinois, and the Peoria area to play. After Saturday's round, we hosted a live band and food for the women. It sure turned into a dance party! We want to thank all the volunteers that came out to help with this event!

September is usually one of our busiest months for golf outings and tournaments. Please make sure to look at the calendar to see when those outings will be. The last weekend of September we will be hosting the 2021 Club Championship. Open to all Season Pass Holders. Who will claim the parking spots this year?

My door is always open and keep it in the fairway!

SWING TIP OF THE MONTH

The Putter Swing

Here is a pointer to help you make that putter swing more consistent.

The Triangle: Not every putting stroke is the same. But the most effective ones are repeatable and have only 1-2 moving pieces. Next time you make it out to the putting green, try to feel your arms hanging long and relaxed before gripping the putter. This will make a triangle with your arms like the picture below. During your putter stroke try to keep that triangle from breaking. Rock your triangle back and through without breaking your elbow or wrist angles that you set up with. This should help you simplify that putter swing.
